

Jetties & Wharves

M P Rogers & Associates has been operating for over 20 years. The senior engineers have extensive experience in the planning and design of jetties and wharves in Australia, the Pacific and South East Asia. These include local to regional boat ramps and facilities which can be separate assets or part of a marina or harbour.

Key capabilities include:

- Facility planning, development of options and feasibility assessments
- Definition of design criteria and conditions
- Navigation requirements, design and management
- Engineering design of jetties and wharves
- Construction phase services including compliance inspections
- Contract administration
- Monitoring, condition assessments and asset management
- Assessment of maintenance requirements
- Capital and operational cost estimates

Recent project experience includes:

- Elizabeth Quay Jetty Design and Barrack Square Jetty Extensions
- Tawarri Jetty Design
- Palm Beach Jetty Demolition, Design and Construction Phase Services
- Val St Jetty Replacement Design
- Peaceful Bay Finger Jetty
- Bunbury Timber Jetty Deconstruction
- Albany Waterfront Service Wharf and Jetty Extension
